As a consequence of high performance composite materials rapidly expanding to new industries for use in a variety of structures, many challenges have arisen in the domains of composite design, analysis and manufacturing.

Dr. Guillermin, Director of Product and Market Strategy at VISTAGY, Inc., will give a presentation discussing the challenge of best integrating tools (such as CAD, CAM and CAE software) and for the design and the analysis of composite structures, from large aircraft fuselage and wing sections to wind turbine blades or complex automotive parts. The presentation will also address available or forthcoming integration approaches and the resultant applications and benefits.

When: Tuesday, June 28th, 2011

5PM Social Hour

6PM Dinner (Presentation following dinner)

Where: Old Spaghetti Factory

2509 196th St SW, Lynnwood, WA 98036
